

In re Patent Application Serial No. 10/643,094
Amendment dated February 17, 2004
Reply to Office Action of November 17, 2004

Page 6 of 6

BEST AVAILABLE COPYRemarks

This Amendment has been made in response to the Office Action of November 17, 2004. Applicant has reviewed the Office Action in detail and appreciates the Examiner's attention to this application. Applicant also appreciates the Examiner's indication of allowable subject matter and believes that the current Amendment puts the application in condition for allowance.

Claims 1-14 were pending in this application. Applicant submits new claims 15-27 herein. Claims 1-7 are canceled without prejudice. Claim 8 has been amended to correct a spelling error. Claim 14 has been canceled since it was repetitive in relation to Claim 12.

Claims 15-27 have been added to incorporate the indicated allowable subject matter, namely the flange structure, into other embodiments of the box level including an embodiment with only hang liners and an embodiment with only at least one hand-hold. Because the added claims all incorporate the subject matter that has been indicated as allowable, Applicant believes that no further searches are necessary and the newly added claims are in condition for allowance.

Indeed, Applicant believes that all claims are in proper form for allowance. Early favorable action is earnestly solicited. The Examiner is invited to call the undersigned attorney if that would be helpful in facilitating resolution of any issues which might remain.

If any fees are due, please debit Deposit Account 10-0270 and inform the undersigned.

Respectfully submitted,

Matthew M. Fanan
